American Constitutional Law

University of Tennessee, Knoxville 3rd Edition One Copy
Author: Otis H. Stephens Total Pages:1-844
Contents: vii-x Table of cases:1-15 Index:1-17

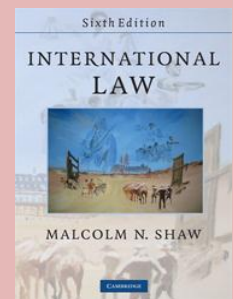

More than a casebook, this comprehensive text contains thirteen chapters that cover the entire range of topics in constitutional law. Each of the chapters includes an extended essay providing the legal, historical, political, and cultural contexts for the set of edited decisions from the United States Supreme Court that follows. In selecting, editing, and updating the materials, the authors emphasize recent trends in major areas of constitutional interpretation. At the same time, the authors include many landmark decisions, some of which retain importance as precedents while others illustrate the transient nature of constitutional interpretation. Because the book provides a good balance of decisions and authorial commentary, this text appeals to instructors of law as well as instructors of political science.

International Law

Cambridge University Press 6th Edition One Copy
Author: [Malcolm N. Shaw](#) Total Pages: (1-1341)
Contents: (vii-xix) Table of cases: (xxiii-lxxx) Index: (1342-1542)

Malcolm Shaw's engaging and authoritative International Law has become the definitive textbook for instructors and students alike, in this increasingly popular field of academic study. The hallmark writing style provides a stimulating account, motivating students to explore the subject more fully, while maintaining detail and academic rigor. The analysis integrated in the textbook challenges students to develop critical thinking skills. The sixth edition is comprehensively updated throughout and is carefully constructed to reflect current teaching trends and course coverage. The International Court of Justice is now examined in a separate dedicated chapter and there is a new chapter on international criminal law. The detailed references and reliable, consistent commentary which distinguished previous editions remain, making this essential reading for all students of international law whether they be at undergraduate level, postgraduate level or professional lawyers.

JUDICIAL REVIEW OF PUBLIC ACTIONS

Pakistan Law House Edition:2006 2 Volumes

AUTHOR: JUSTICE (R) FAZAL KARIM

Total Pages: Vol.1 (1-911) Vol. 2 (912-1475) Contents: (xi-xxx)

Table of Cases: (xxxi-lx) Index: (1483-1492)

This is a book on Judicial Review, contextually considered. The Context is a written constitution. Under an unwritten constitution, as in England, judicial in particular executive-power." According to Dicey, who "remains the prophet of this mode of thinking", the parliament has "under the English constitution the right to make or unmake any law, and further, that no person or body is recognized by the law of England as having the right to override or set aside the legislation of the Parliament. " Under the written constitution, such as in the United States of America, India and Pakistan, the position is wholly different. A written constitution creates limited power in its institutions. Ever since Marbury v. Madison, it has been the firmly entrenched law that the courts in general and the Supreme Court in the last resort have the power of judicial review, that is, the power "to decide for the government as a whole what the constitution means and to declare acts of other departments of government (including those of the legislature) invalid if they exceed the powers provided for them by the constitution, properly understood" This is, what according to the Greek Philosophers - including Plato and Aristotle- the conception of justice is. "They thought-originally on grounds derived from religion- that each thing or person has its or his proper sphere, to overstep which is unjust" Judicial review is 'judicial power' in action; it is the practical aspect of the rule of law.

Women and Justice: Development of International Policy

Gordon and Breach Publishers

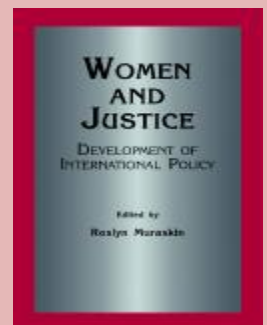

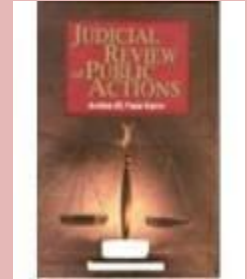

Edition: 1999 One Copy

Author: Roslyn Muraskin

Total Pages: (1-220)

Contents :(v-vi) Table of Cases: (v-vi) Index: (221-229)

The discrimination and inequitable treatment of women within international criminal justice systems is the focus of this timely and insightful text. Clearly illustrated within the nine chapters of the book, women, as a class, have been excluded from participating as workers in the criminal justice system. Women have also received inferior treatment when incarcerated, compared to their male counterparts; and have had their court proceedings influenced by sex role stereotypes when women are the victims of a crime. These distinctive studies by international authors offer a global, comparative analysis of women in the criminal justice systems of South Korea, Finland, Egypt, Lebanon, Great Britain, the United States and the Caribbean nations. Beyond analysis of past and existing circumstances, the authors also offer suggestions to grant women full equality in criminal justice policies and practices around the world.
